Re: Water Right No. CG2-GWC6596 for Pirate's Cove Country Club Well 3

Dear Ms. Gray:

In response to your request, you are hereby granted an extension to put the water to full beneficial use for the reason below:

- Construction is completed and due diligence is shown in development of this project.
- Additional time is needed for full build-out and occupancy of homes.

The new deadline to submit your *Proof of Appropriation of Water* is **August 1, 2017**.

Your letter requested a 10-year extension. We are granting a maximum of 6 years with the understanding that more time will likely be needed to complete this project. Your next extension request or *Proof of Appropriation* form must be accompanied by metering data from each of Pirate's Cove Country Club's wells.

This water right requires sampling for chlorides annually, during the month of August, and annual submittal of results to Ecology. Measurements recorded in the Department of Health Sentry database indicate that chloride levels are stable and at background levels. However, chlorides must be monitored annually at least until Pirate's Cove Country Club is fully built out. Please submit sampling results to Ecology by January 31st of the following calendar year.
